

Team AI Project Design Canvas

Think together before building with AI.

Team Name: _____ Team Members: _____

Good team projects start with shared decisions. Listen to every idea, decide together, then build with AI. AI is your team's partner, but your team is the creator.

1 Project Title

What is the working title of your team project? You can change it later.

2 What do you want to make?

Explain your team's shared idea in one or two simple sentences.

Our team wants to make a...

3 Who is it for?

Who will use your project? Choose one or more.

☐ Students

☐ Friends

☐ Family

☐ Church members

☐ Other

Our project is for...

4 What problem does it solve?

What problem or need does your project help with?

The problem is...

Our project helps by...

Build Your Team Project Plan

Choose one essential feature, divide the work, and build together.

Team Name: _____

Team Members: _____

5 Choose Your Features

Keep the project small enough to finish today.

Must Have — 1 feature
The project cannot work without this.

Nice to Have — 1 feature
Try this only after the Must Have works.

6 Design / Mood

How should your project look and feel? Decide together.

☐ Fun

☐ Cool

☐ Cute

☐ Calm

☐ Simple

☐ Colorful

☐ Professional

Colors

Style / Mood

7 What should never change?

What idea, feature, or feeling must stay in your team project?

8 Every Team Member Builds

Each person contributes one idea and takes one turn giving an AI request.

Team Member	My Contribution	My AI Request / Build Turn

Our Project Summary

Use these sentences to explain your plan to your AI partner.

Our project is...

Our project is for...

It helps people by...

The Must Have feature is...

Ready for AI!

Explain this Canvas to your AI partner. AI helps your team build the idea; it does not replace your team's thinking.

Keep this Canvas during the project. If your team changes the core idea or Must Have feature, update the Canvas first.
