

AI Project Design Canvas

Design your idea before building with AI.

Name: _____ Date: _____

Good projects start with good ideas. Think first, then build with AI. AI is your project partner, but you are the creator.

1 Project Title

What is the name of your project?

2 What do you want to make?

Explain your idea in one or two simple sentences.

I want to make a...

3 Who is it for?

Who will use your project? Choose one or more.

☐ Students

☐ Friends

☐ Family

☐ Church members

☐ Other

My project is for...

4 What problem does it solve?

What problem or need does your project help with?

The problem is...

My project helps by...

Build Your Project Plan

Choose the features and style that match your idea.

Name: _____

5 Main Features

What should your project do? Start with the most important feature.

Feature 1

Feature 2

Feature 3

6 Design / Mood

How should your project look and feel? Choose words and add your own ideas.

☐ Fun

☐ Cool

☐ Cute

☐ Calm

☐ Simple

☐ Colorful

☐ Professional

Colors

Style / Mood

7 What should never change?

What idea, feature, or feeling must stay in your project?

The most important thing to keep is...

My Project Summary

Use your answers above. This summary will help your AI partner understand your project.

My project is...

It is for...

It helps people by...

The most important feature is...

Ready for AI!

Now explain this Canvas to your AI partner. AI helps you build your idea. AI does not replace your thinking.

Keep this Canvas during the project. It is your project guide (PRD). If your idea changes, update the Canvas first.
